National Women Mega Empowerment

Official Report on the Flag-Off and Asset Distribution

FCT Pilot Phase – Tuesday, 5th May, 2026

Abuja, Nigeria

Foreward

"There is no challenge, obstacle, or difficulty that we cannot overcome if we keep hope alive."

— **Her Excellency, Senator Oluremi Tinubu, CON**

The Power of 10 Million National Women Mega Empowerment Programme represents a strategic national commitment toward strengthening economic inclusion, expanding livelihood opportunities, and promoting sustainable development for women across Nigeria.

Held in Abuja on 5th May 2026, the programme brought together beneficiaries, stakeholders, government officials, development partners, and community representatives in a coordinated empowerment initiative focused on skills development, enterprise support, vocational training, and financial inclusion.

The initiative reflects a growing recognition of the vital role women continue to play in strengthening households, sustaining local economies, advancing entrepreneurship, and contributing meaningfully to national growth and community resilience. Through targeted interventions and practical empowerment support, the programme seeks to move beyond temporary assistance toward long-term economic participation and self-reliance.

This publication documents the key moments, engagements, and interventions that defined the programme while preserving a visual and narrative record of collective efforts aimed at improving livelihoods, expanding opportunities, and supporting inclusive national development.

As efforts continue to scale across communities nationwide, it is hoped that the impact reflected within these pages will inspire continued collaboration, stronger participation, and renewed commitment toward empowering women and strengthening the future of communities across Nigeria.

The Blueprint for National Mobilisation and Empowerment

Vision

To build Nigeria's largest women-led grassroots mobilisation and empowerment movement by organising women across all wards, local governments, states, and geopolitical zones into one coordinated national force capable of driving inclusion, strengthening communities, deepening economic opportunity, **and delivering a unified voting bloc of support for the Renewed Hope Agenda of His Excellency, President Bola Ahmed Tinubu, GCFR, ahead of the 2027 General Elections** and beyond.

The vision of The Power of 10 Million is to transform the numerical strength, economic contribution, and civic influence of Nigerian women into a visible and organised national structure, anchored on empowerment, mobilisation, participation, and long-term political and development impact.

Aim

The initiative is designed to mobilise, organise, empower, and verify a minimum of 10 million Nigerian women voters nationwide into one coordinated national movement.

The movement seeks to:

Build a verified women-led voting bloc of over 10 million votes in strategic support of His Excellency, President Bola Ahmed Tinubu, GCFR and the **Renewed Hope Agenda**;

- Deepen women's economic empowerment across communities;
- Strengthen women's civic and political participation;
- Expand women's inclusion in governance and leadership;
- Build strong ward-based mobilisation systems;
- Strengthen long-term loyalty and ownership through direct impact and engagement;
- Establish a sustainable women-led structure that extends beyond the 2027 elections.

Strategic Operational Framework – The 1,200 Per Ward Model

To ensure structure, accountability, and measurable reach, the movement will operate across Nigeria's 8,809 electoral wards through a simple grassroots mobilisation model.

Each ward will be organised into:

50 structured women groups

with

24 women per group

bringing each ward to:

1,200 women per ward

This creates:

- Strong ward ownership
- Grassroots participation
- Community accountability
- Fast mobilization
- Reliable voter verification
- Real-time communication structures

Across all wards nationwide, this structure creates a powerful and verifiable pathway toward mobilising 10 million+ women voters while establishing a dependable grassroots infrastructure capable of rapid coordination and sustained national reach.

Political Mobilisation & Strategic Stakeholder Engagement

The movement will work closely with:

Party structures

Women political leaders

State stakeholders

Community influencers

Traditional institutions

Grassroots women leaders

Polling unit supervisors

This strengthens:

- Political coordination
- Women's inclusion in party structures
- Polling unit readiness
- Voter mobilisation
- Grassroots turnout
- Community trust

The objective is to ensure a visible and coordinated women-led mobilisation structure capable of galvanising 10 million votes for Mr. President while strengthening women's place within national political engagement.

Economic Empowerment Structure

The movement also includes a practical empowerment framework.

Each ward is expected to benefit from a minimum intervention of:

₦10,000,000 per ward

through:

- Enterprise support
- Skills development
- Business empowerment
- Equipment and tools
- Local women cooperative support

Community-led economic opportunities

This ensures that mobilisation is backed by direct impact and visible empowerment at community level.

By connecting women to economic opportunity while strengthening community participation, the movement builds trust, loyalty, visibility, and sustainable long-term engagement.

Core Objectives

The initiative seeks to:

1. Mobilise and verify over 10 million women voters nationwide in support of the Renewed Hope Agenda.

2. Build ward-level women leadership structures through organised groups and trusted coordinators.

3. Strengthen polling unit mobilisation capacity through trained local women leaders.

4. Deepen women's economic empowerment through targeted ward-based interventions.

5. Increase women's participation in governance and political structures

6. Strengthen grassroots ownership of government reforms and interventions

7. Build long-term political trust and loyalty through visible impact

8. Create a sustainable national women mobilisation structure beyond 2027

Expected Outcomes

The movement is expected to deliver:

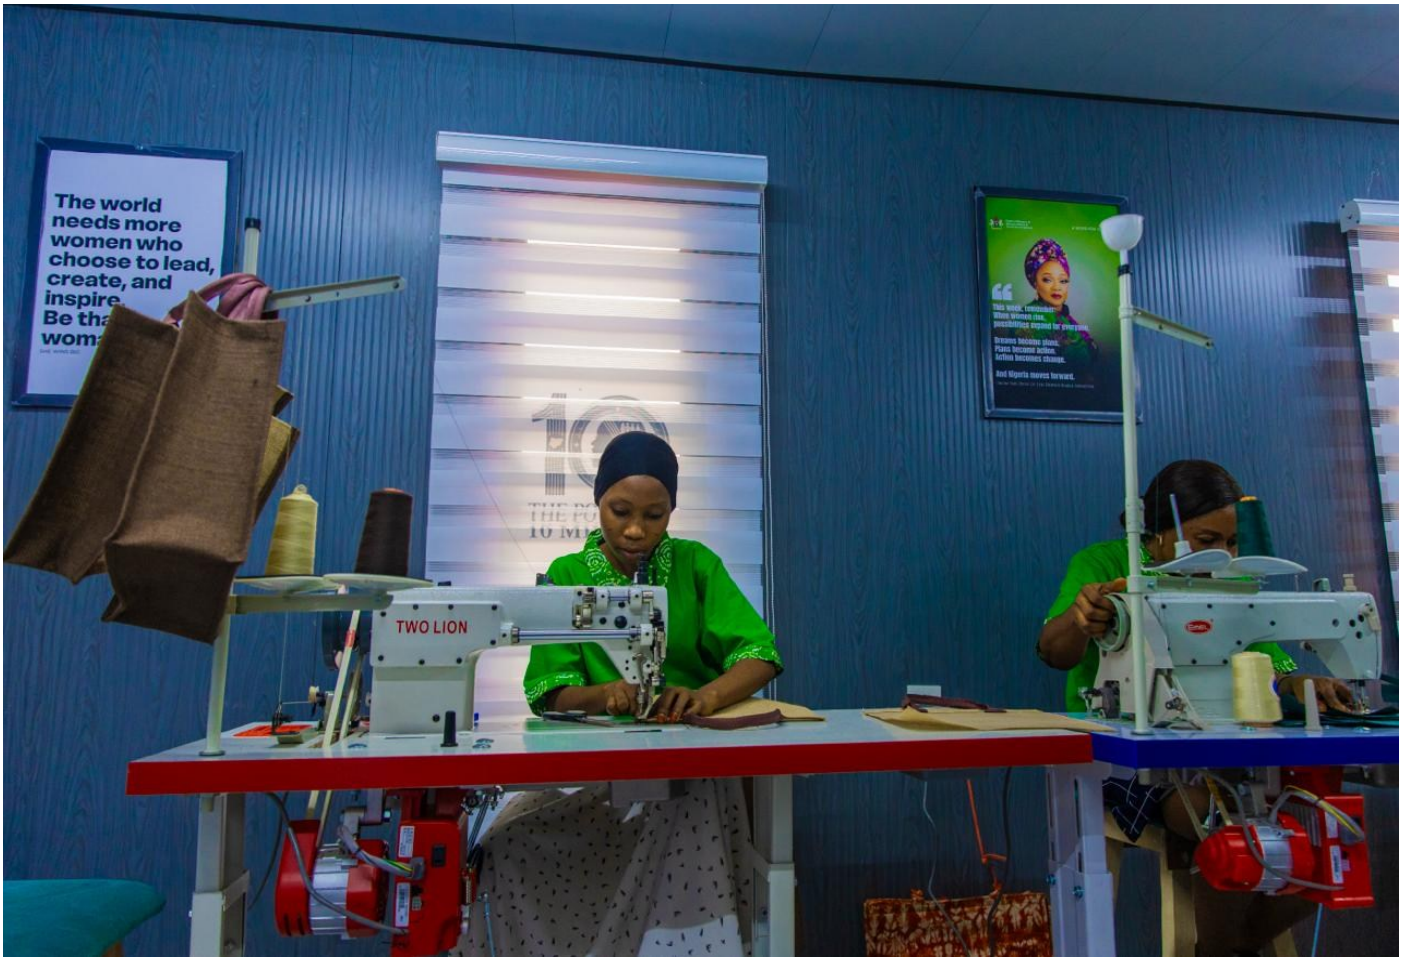

- A verified national women-led voting bloc of 10 million+ women
- Strong polling unit supervisors and ward mobilisation teams
- Increased women participation across political structures
- Stronger grassroots ownership of government interventions
- Direct empowerment support reaching women at ward level
- Increased visibility for the Renewed Hope Agenda
- Stronger women-led community mobilisation nationwide
- Long-term trust and loyalty among women beneficiaries
- A permanent national women structure that outlives the 2027 election cycle
- A lasting legacy of women-led organisation, mobilisation, and support for national development

The Power of 10 Million therefore represents more than a rally.

It is a strategic national women-led mobilisation and empowerment movement designed to organise women, strengthen communities, deepen inclusion, build economic opportunity, and galvanise 10 million votes in support of **His Excellency**, **President Bola Ahmed Tinubu, GCFR**, while establishing a sustainable legacy of

EVENT OVERVIEW

The Power of 10 Million National Women's Mega Empowerment Rally 2026 brought together women, youth representatives, stakeholders, development partners, and participants from across Nigeria in a large-scale national engagement focused on empowerment, inclusion, and collective participation.

Held at the Moshood Abiola National Stadium, Abuja, the programme featured coordinated empowerment interventions, vocational support initiatives, structured stakeholder engagement, and inclusive participation involving women, youth, and vulnerable groups from diverse communities nationwide.

The event reflected ongoing national efforts to strengthen economic inclusion, expand opportunities for women, and promote sustainable community development through collaborative action, leadership engagement, and grassroots participation.
